Dear Mr. MLINKÓ,

Dear Mr. BALOG,

We would like to send you the information about our intention to increase the NTC values in direction from Hungary to Romania with 100 MW, from 700 MW to 800 MW (still lower than 1000 MW MAVIR value), for all days of the time intervals January, 18 – 31 and February, 01 – 28, 2019.

Taking into account that monthly values for January and February, 2019 were allocated already by JAO, we will send the additional value to be allocated on daily basis within 4M MC platform and intraday allocation.

Sincerely,
Directorate,
